MINES AND

The Latest News From Goldfield

Combination Declares Another Dividend of \$40,000-Another Rich Sandstorm Shipment Ready.

The Combination Mining company yesterday declared another dividend of \$40,000, which is 10 per cent on its capitalization of \$400,000, but is actually a dividend of 17% per cent, as there are but \$329,000 capital stock issued. The second dividend comes quickly after the first, but the company could make them more frequentand larger if they so desired. The Combination has never had a very large force employed, and have done but fifty feet of stoping, and yet their books show a profit of \$320,000 above all mining and operating expenses during their first year. In addition there are several hun-dred thousand deliars' worth of mill ore on the dumps, says the Goldfield News.

Sandstorm Shipment Almost Ready.

Developments on the Sandstorm continue to meet every expectation, and the first shipment, consigned to the Western Ore Furchasing company at Reno, will leave camp on the 20th possibly before. It will go out under guard. At this writing but two lots have been sampled. The high-grade running about \$500 and the second-grade, \$1690-indicating an average value thus far of \$200 a ton. Mr. Davis does not expect that the entire shipment will reach any such high average, but should it do so, the returns will exceed, with a single exception, the best the camp has ever done. Surface work and exploitation continue with as large a force as can be employed to advantage. Both ledges show steady improvement. The upper ledge is now eighteen feet wide and still growing. The lower ledge shows now two streaks from which stuff has been taken rich enough for the mint. The old dump is now being run through theore house and screened in passing. These screenings run about \$100 a ton. There are 100 tons of this old material that will be screened in this way. The lessess have not yet decided whether to drift from the old shaft or sink an entirely new one. Surveys are being now made to determine the best plan.

Tinhorn Showing. Sandstorm Shipment Almost Ready.

- Tinhorn Showing.

Tinhorn Showing.

The Tinhorn, owned by the Dixle Mining company, has made an exceptionally good showing the past week, and may now be classed among the mines of the district. Recent assays taken from the ledge gave returns of 3852 and 3851, one being a check on the other. The entire bottom of the shaft, which is between sixty and seventy feet deep, is in good ore A pronounced charge in the vein matter has been noted accompanied by increased values.

Opened Rich Stringer

Opened Rich Stringer.

Lessees Sullivan, Baldwin and associates, operating on the north end of the Patrick claim of the Lone Star group, have opened a stringer of very rich tale that gives great promise of developing into something big. Assays run away up into thousands and present indications point to the probable certainty of their opening up a shoot of high-grade shipping ore.

Black Butte Improvement.

In two faces in the crosscut from the west drift on the Black Butte shaft there are showing faces of splendid milling quartz continued sampling and panning indicating values ranging from \$60 to \$50 per ton. These values have been permanent for some time and there has been exposed an additional ore reserve of very considerable importance on this mine. The January.

The new ledge on the January has been crossent for eighteen feet. There are one and one-half to three feet of shipping ore in this ledge, and the balance averages better than \$11 per ton. The Goldneid Mining company has bought the holst and assay office from the lessers.

The Quartzite.

The winze on the Cuartzite of the Diamondfield is down twenty feet from the forty-foot level, and the whole winze is in shipping ore, while handsome specimens of spivanite are encountered which go into the pictures.

Blue Bell Looking Better.

Work on the Goldfield Blue Bell property is being prosecuted steadily and the company is greatly pleased with the showing ... o men are trenching and drifting, and pay ere may be opened up any day.

GOLD AND SILVER PRODUCTION.

Geological Survey Says Nevada Is the

Leading State for 1903. An advance sheet of the statistics of

annual production of gold and sliver in the United States in 1963 has been received from the United States Geological survey, which contains the surprising statement that in that year Nevada's output of the precious metals, due chiefly to the shipment of rich one from Tonopah. "made Nevada the leading State in the Union in the production of gold and sliver in 1963." According to the "Mineral Resources of the United States" for 1992, issued by the United States Geological survey, the production of gold in Nevada in 1962 was \$2,865.300, and \$1,885.486 (commercial value) sliver—a total of \$4,889.786. As the advance sheet states that the increase in production of gold and sliver in Nevada during 1963 was \$492.760, the total output for 1963 for that State should have been about \$5,373,000. As there are several States which in 1962 are known to have produced considerably in excess of this amount, and in which the falling off. If \$600,000 in 1962 and nearly the same in 1963; Colorado over \$8,000,000, which was increased in 1962; California produced over \$17,000,000 in 1962 and nearly the same in 1963; Colorado over \$15,000,000 in 1962 and shout \$2,000,000 in 1962 and shout \$2,000,000 in 1962 and nearly as much in 1963; South Dakota in 1962, and Arizona produced \$5,753,153 in 1962 and showed an increase over this in 1963.

These figures merely indicate that, although Nevada is rapidly increasing her output of precious metals, and that while the statistics for 1964 will probably show a still further increase over 1963, that State is not in the lead as stated by the bulletin of the United States survey, but really is number seven in the list.

SHIPMENT FROM THE CHARM. the United States in 1903 has been received from the United States Geological

INTERESTING DAY ON 'CHANGE

New York Advances, and Wabash Shows a Decline.

The advance of New York and the de cadence of Wahnsh were the features. of the day. The first named stock, after its first advance on an excellent showing, has remained firm when the bottom was falling out of the market Now, with assured prospects, it has advanced until it sold at 25% c yesterday afternoon, and the general condition of the property is believed to warrant this price. Wabash was a feature through its swift decline to \$2 a share, caused, it is said, by something like 4000 shares being thrown on the market by Missouri and Eastern holders. While selling as low as S during the afternoon, it recovered somewhat, and sold up to \$2.25 on the open market
Little Chief was active, selling at 3%
cents during the day.
May Day took a slump to 19% cents, but

old in the afternoon at 20 cents. Butler Liberal was steady at 12½ cents share.
Petro sold at 9 cents, and Tetro at 19 cents.
The total number of shares sold during the day amounted to 37,450 ,for which \$10,-

52.99 was received. The closing quotations follow | A.M. | P.M. | Bid | Asked

Tonopah-Goldfield Quotations.

James A. Pollock & Co., bankers and brokers, furnish the following closings on Tonopah Sait Lake Stockholders of the shares of the Charm mine in the Drum district, are much pleased with the results of the first shipment, made yesterday. The ore is very similar in character to the Gasis ore, but the shipment received yesterday was perhaps more carefully sorted than those from the Gasis. The gold values are somewhat higher running 112 ounces gold, or 120.25 per ton. Other shipments from this property, which as yet has not been extensively developed, may be expected on the market shortly. The officers of the company are Jed Clive and Dr. White of Gasis, W. S. Mc-Cevnick, P. W. Madsen and others.

Information on the Wabash Co.

Officials Are Not Interested in the Speculation on Its Shares-Will Not Affirm or Deny Rumor.

Wabash stock, its rise and fall, has been for the past week a constant subject of conversation among mining men. Quoted two weeks ago at a price for tess than it has advanced by leaps and bounds

two weeks ago at a price far less than \$1, it has advanced by leaps and bounds to as high as \$2.10 a share. From this point, during two days, it has declined to as low as \$2 a share.

Two reasons have been advanced for the rise in the price of this stock.

At first it was ascethed to a corner in the stock, and that the advance was due to the mileting of the "shorts" by the inside people. This theory held for a day or two mittl it was discovered that no short interests existed to speak of, and that the buying was being done by persons who were believed to have commissions from persons who are not speculaters but investors.

The Tribune has maintained that changes in conditions in this property have merited an advance in price.

The Tribune is at liberty to quots W. Mont Ferry, a large stockholder of the company, who has this to say regarding it. "You can state," said Mr. Ferry yesterday, "that none of the large stockholders or officers of the company are interested in any way in the speculation on the stock.

"The principal stockholders and directors, with others, have expended in the neighborhood of \$20,000 on this property. We do not care to either affirm or deny the rumors placed in circulation regarding it, it is on personal grounds, and the company, as a whole, has nothing to do with it."

The report was placed in circulation yesterday, and came apparently from good authority, that within the list thirty days the Wabash company has purchased a large block of ground adjacent to its present property and has paid for it the sum of \$100,000 cash down. The report stated that John W. Creighton of Omaha, one of the principal stockholders of the company is responsible for this purchase. The report cannot be verified, the officers of the company pursuing their policy of refusing to affirm or deny any rumors.

MORE ABOUT BINGHAM.

MORE ABOUT BINGHAM.

Net Earnings Will Exceed for December Those of November.

It is now fairly certain that Bingham's net earnings for December will exceed those for November, notwithstanding the fact that for more than a month the Boston Consolidated has not been shipping ore to the Bingham smelter, says the Commercial Bulletin President E. L. White, who returned from the property this week, is decidedly satisfied with the progress being made. "I found all the plants and properties in splendid shape," he says, "with the smelter making an especially good showing. At the Dalton & Lark mines an extremely rich ore body has been cut on the 1160-foot level, the face of which has lately been averaging 7 per cent in copper and 60 eunces in silver. We are now shipping 250 tons a day from this mine." Mr. White also says that the Lead mine contains a fine body of ore which will probably average 3 per cent to 4 per cent copper. The Mascat tunnel is believed to be in close proximity to the ore bodies which have been found above and which will be cut by the tunnel at a depth 325 feet lower than the lowest workings. The Eagle & Blue Bell is shipping about seventy-five tons per day, and is in satisfactory shape. The ore in the Commercial mine is running much higher in values than at first. Altogether the Bingham properties are producing 12,000 to 15,000 tons of custom ores. those for November, notwithstanding

Boston Copper Market.

Special to The Tribune.

BOSTON, Mass., Dec. 22.—Yesterday's attack on the New York market had a depressing effect on our local copper shares, which were particularly heavy today in spots. In some issues it looked as though long stock was being handed out, while some of the others maintained their firm tone. This market is in a very good position, nearly all of the weak holders were shaken out during the late sharp decline, and the general impression is that a better market should follow. Hornblower & Wocks, brokers, 33 State sirest, Boston, and 16 Wall street, New York, furnish the following quotations:

High-Grade Ore Extracted. Special to The Tribune.

CALIENTE, Nev. Dec. 22.—Work on the Callente Gold Mining company's prop-erties, adjoining the town site of Call-onte, is progressing rapidly in a drift run on a six-foot ledge of free milling ore, and some high-grade ore has been ex-tracted and stored ready for shipment so soon as the Salt Lake read will soon as the Salt Lake road will accept the ore on the basis of free shloment for the first carload to Salt Lake smelters.

A gang of miners are working on the properties of the Louisiana Purchase Mining and Milling company, three miles east of Callente and an early shipment of ore to Salt Lake is anticipated. The ore on the Lucky Boy No. 1 runs about \$9.10 per ton at grass roots and there is a veritable mountain of this class of ore in sight.

Ore and Bullion Settlements.

Ore and buillon settlements for yesterday amounted to \$61,269. As reported by McCornick & Co., they were as they follow: American buillon, \$32,399; gold, bars, \$3299; gold, sliver and lead ores, \$15,500. In the metal market sliver is quoted at \$115, cents an ounce, copper at 14% cents per pound, lead at \$1,5034.50 per cwt.

Mining Notes.

Another shipment of uranium-vanadium ors from the Welsh-Loffus property in the La Sal mining district will be made shortly.

George Thackrab has resigned the position of fiscal agent of the Empire Coasolidated Mining and Smelting company, to take effect December 3.

Treasurer A. A. Ball of the Annie Laurie Mining company is in the city.

After temorrow's call the mining exchange.

After tomorrow's call the mining exchange ill take a recess until Tuesday next. W. M. White will shortly go to Beave county to do some engineering work for th Majestic Copper company. James Long Jr., of the Gold Mountain Da-velopment company is in the city to remain until after the helidays.

IN THE DISTRICT COURT OF THE United States for the District of Utah — In the matter of Alvaro A. Pratt, bank-rupt.—No. 751 in bankruptey.—Petition for

rupt.—No. 781 ia bankruptcy —Petition for discharge.

To the Honorable John A. Marshall. Judge of the District court of the United States for 'the District of Utah.

Alvaro A. Pratt of the city and county of Salt Lake and State of Utah, in said district, respectfully represents that on the Isih day of November. 1994, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully compiled with all the requirements of said acts and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankrupt acts, except such debts as are excepted by law from such discharge.

Dated this 22nd day of December, A. D. 1814

from such discharge
Pated this 22nd day of December, A. D.
PRATT,
Bankrupt.

ORDER OF NOTICE THEREON.
District of Utah.
On this 22nd day of December, A. D.
1801, on reading the foregoing petition it is ordered by the court, that a hearing be had upon the same on the 19th day of January, A. D. 1905, before said court at Sait Lake City, in said district at 10 o clock in the forencon; and that notice thereof be published in The Sait Lake Tribune, a newspaper printed in said thereof be published in The Sait Lake Tribune, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have why the prayer of the said petitioner should not be granted. And it is further ordered by the court that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated. Witness the Honorable John A. Marshall, Judge of the said District court, and the seal thereof, at Salt Lake City, in said district, on the 22ad days of December, A. D. 1994.

[Seal of Court] Attest.
